01 — COMPANY PROFILE

Building with precision. Delivering with discipline.

A concise overview of GOOD WAVE E&C PTE. LTD. and its current project portfolio.

GOOD WAVE E&C PTE. LTD. presents this portfolio to showcase selected project experience across structural steel installation, temporary works, railings, linkways, pavilions and associated construction works. The portfolio reflects active and scheduled projects documented for 2026 and beyond.

3	S$2.15M	2026–2029
SELECTED PROJECTS	STATED COMBINED VALUE	PROJECT PERIODS

Our project focus

- Structural steel installation and associated steelwork packages.
- Linkways, drop-off porches, pavilions and related architectural steel elements.
- Railing installation including staircase, AC ledge, corridor and crash-barrier applications.
- Temporary works and steel drain works supporting major infrastructure construction.
- Work packages within large-scale residential, transport and public-infrastructure developments.

Portfolio approach

02 — ABOUT THE COMPANY

GOOD WAVE E&C PTE. LTD.

Singapore-registered building construction contractor

GOOD WAVE E&C PTE. LTD. is a Singapore Private Company Limited by Shares incorporated on 22 April 2021. The company is registered with the Accounting and Corporate Regulatory Authority (ACRA) under UEN 202114466R and is currently recorded as a Live Company.

The company operates in the general contracting sector, with its principal and secondary business activities recorded as General Contractors (Building Construction including Major Upgrading Works). Its documented project portfolio demonstrates involvement in specialist construction packages including structural steel installation, temporary works, steel drain works, railings, crash barriers, linkways, pavilions and drop-off porch works.

The company was previously named APR ENGINEERING. With a paid-up capital of SGD 100,000, GOOD WAVE E&C PTE. LTD. presents itself as a Singapore-based contractor focused on delivering defined work packages within major residential, public-housing and infrastructure developments.

BUSINESS ACTIVITIES

• General Contractors — Building Construction including Major Upgrading Works.

• General Contractors — Building Construction including Major Upgrading Works (secondary activity).

• Project execution across structural steel, temporary works and associated building-construction packages documented in the company portfolio.

ABOUT GOOD WAVE

GOOD WAVE E&C PTE. LTD. combines its general contracting activity with practical site-based delivery of specialist construction packages. The selected projects in this portfolio place the company within complex development environments where steelwork, access structures, railings, barriers and temporary works must be coordinated with broader building and civil programmes.

The portfolio includes public housing developments with high-rise residential blocks and communal facilities, as well as infrastructure works associated with the North-South Corridor. These references provide a clear picture of the types of construction environments and work scopes represented in the company's documented project experience.

This company profile is intended to provide clients, main contractors, consultants and procurement teams with a concise understanding of the company's corporate particulars, business activity and selected project capabilities.

Each project page combines the client/project reference, scope summary, programme information and site photography. The layout has been intentionally simplified to make key information easy to review during tendering, prequalification and business development discussions.

GOOD WAVE E&C PTE. LTD

07 — CAPABILITIES

Focused execution across steel and construction packages

A portfolio-led view of the work categories represented in the selected projects.

01

STRUCTURAL STEEL

Steel structure installation supporting linkways, pavilions, porches and associated structures.

02

RAILINGS & BARRIERS

Staircase, corridor, AC ledge railing and crash-barrier installation.

03

TEMPORARY WORKS

Steelwork packages supporting infrastructure and civil construction activities.

04

SITE COORDINATION

Construction-stage execution across residential and major infrastructure environments.

What this portfolio demonstrates

- Experience across high-rise residential and major infrastructure project environments.
- Ability to deliver defined specialist work packages within larger construction programmes.
- Exposure to both structural steel and finishing/interface elements such as railings and barriers.
- Project values ranging from S$140,000 to S$1.45 million in the selected records.

08 — PORTFOLIO SUMMARY

Selected project record

Three documented projects forming the current Goodwave E&C project portfolio.

PROJECT	CLIENT / REFERENCE	PERIOD	STATED VALUE
Tengah PA C1 & CG	Teambuild Engineering & Construction	Feb–Nov 2026	**S$560,000**
Contract N110	Lum Chang Building Contractors	Jul–Oct 2026	**S$140,000**
Bukit Merah C54 & 54A	Teambuild Engineering & Construction	Apr 2026–2029	**S$1,450,682**

Combined stated project value

S$2,150,682

This total is calculated from the three project values recorded in the source portfolio: S$560,000 + S$140,000 + S$1,450,682. It is presented as a portfolio summary, not as a statement of company turnover.
